Accu-Time Systems

TimeCom® Express™ for Connecteam® FAQs

timecom™
a time collection solution

connecteam

Frequently Asked Questions

- **How does the integration work?**

  TimeCom® for Connecteam offers a pre-built integration that ensures seamless data flow between the systems. The integration automates data collection and real-time synchronization, providing accurate employee time and data information for better payroll processing and compliance management. TimeCom for Connecteam is a money-saving solution.

- **How long does it take to be up and running with a new clock?**

  The activation process is straightforward and quick. Most setups can be completed in a short window of time, ensuring minimal disruption to your operations.

- **Besides facial recognition and fingerprint biometric, what other options do I have?**

  In addition to facial recognition and fingerprint biometrics, the stride80 also supports proximity badge scanning for added flexibility.

- **What type of punches and data can I collect on this new clock?**

  With the stride®80 clock, you can collect clock-in and clock-out times, track paid rest and meal breaks, and allocate time to different jobs or tasks, ensuring precise and comprehensive time tracking.

- **Is TimeCom integrated with Connecteam T&A?**

  Absolutely. TimeCom is designed to seamlessly integrate with Connecteam Time and Attendance (T&A) platform, ensuring real-time data synchronization and efficient workforce management.

- **Can employees use both Connecteam mobile app and time clock to clock in/out?**

  Yes, employees can use both mobile devices and time clocks to clock in and out, providing flexibility and convenience.

- **How does it improve employees' experience?**

  Employees benefit from accurate and automated time tracking, eliminating the need for manual entry. The user-friendly interface and biometric options (facial recognition, fingerprint) make clocking in and out seamless and secure.

- **Is this a subscription model?**

  Yes, TimeCom for Connecteam operates on a subscription model, ensuring continuous support and updates.

- **How much does it cost?**

  Pricing for TimeCom for Connecteam varies based on the specific number of time clocks and time clock type your organization needs. For detailed pricing information, please contact our sales team.

- **What does the price include?**

  The price includes the TimeCom software, seamless integration with Connecteam, our advanced time clock - the stride80, and comprehensive customer support
